

Alternative Assessment Vocabulary Math

Word	Definition	Examples
acute angle	A mathematical term that refers to an angle less than 90°.	
add	A mathematical term used when two more objects are combined to make a new total.	
adjacent	A mathematical term that means next to each other.	
all	A mathematical term that cues students to add a group of items.	How many polygons are there in all? 
angle	A mathematical term that refers to the amount of space between two straight lines that have a common end point. Angles are measured in degrees.	
approximate	A mathematical term that means not exact but close enough.	
area	A mathematical term used to describe the square units of a surface.	Find the area of the rectangle. $A=bh$  5 in. 3in.

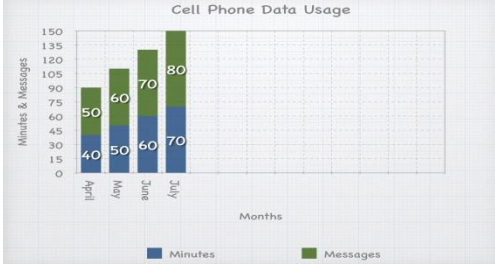

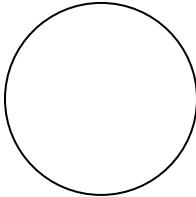

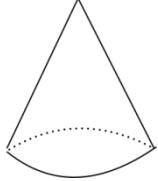

Alternative Assessment Vocabulary

Math

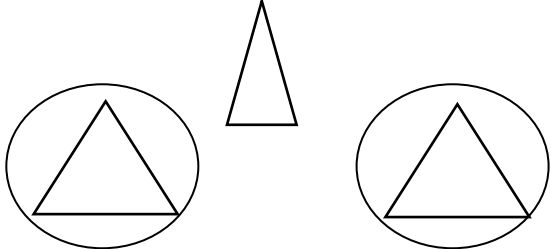

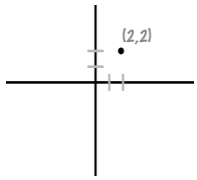

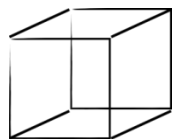

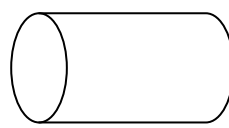

<p>arrange</p>	<p>A mathematical term that means to move objects/items into a specific order or position.</p>	<p>Arrange the following numbers from greatest to least: 8, 3, 9</p> <p style="text-align: center;">Answer: <u>9, 8, 3</u></p>
<p>array</p>	<p>A mathematical term that refers to the placement of objects, pictures, or numbers in columns and rows.</p>	<p>Draw an array for 3 x 5.</p> <p style="text-align: center;"> X X X X X X X X X X X X X X X </p>
<p>attributes</p>	<p>A mathematical term that focuses on the characteristics an object (i.e., color, shape, & size).</p>	<div style="text-align: center;">  <p>A triangle has 3 sides.</p> </div>
<p>average</p>	<p>A mathematical term that means a number that is calculated by adding quantities together and then dividing the total by the number of quantities.</p>	<p>Find the average for the following numbers: 2, 3, 5, 9</p> <p>Step 1: Add all of the numbers in a set $2 + 3 + 5 + 6 = 16$</p> <p>Step 2: Divide that answer by the total number of quantities in the set (4) $16/4=4$</p> <p style="text-align: center;">Answer: <u>4</u></p>
<p>axis</p>	<p>Axis is a mathematical term that refers to a reference line drawn on a graph.</p> <p>x- axis - horizontal number line y-axis – vertical number line</p>	<div style="text-align: center;">  </div>
<p>bar graph</p>	<p>A bar graph is a visual representation of data using bars of different heights.</p>	<div style="text-align: center;">  </div>

Alternative Assessment Vocabulary

Math

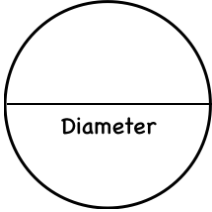

beginning	A mathematical term that means the first part of something.	Which of the following is the beginning number? 3, 7, 9 Answer: <u>3</u>															
bivariate	A mathematical term that means data for two variables that are usually related.	 <table border="1" style="display: none;"> <caption>Cell Phone Data Usage</caption> <thead> <tr> <th>Month</th> <th>Minutes</th> <th>Messages</th> </tr> </thead> <tbody> <tr> <td>July</td> <td>40</td> <td>50</td> </tr> <tr> <td>Aug</td> <td>50</td> <td>60</td> </tr> <tr> <td>Sept</td> <td>60</td> <td>70</td> </tr> <tr> <td>Oct</td> <td>70</td> <td>80</td> </tr> </tbody> </table>	Month	Minutes	Messages	July	40	50	Aug	50	60	Sept	60	70	Oct	70	80
Month	Minutes	Messages															
July	40	50															
Aug	50	60															
Sept	60	70															
Oct	70	80															
categorize	A mathematical term that means to arrange objects into certain groups.	Which of these measurements is a right angle? a.) 75° b.) 90° c.) 180°															
circle	A mathematical term that refers to a shape in which all points are the same distance from the center.																
coins	A mathematical term used to refer to metals shaped as a circle used as a way to pay for goods and services.	P N D Q															
compare	A mathematical term that means to find similarities among a set of data or objects.	Compare the following numbers: 3, 5, 5, 7. Which two are equal? Answer: <u>5</u>															
cone	A mathematical term used to refer to a three-dimensional figure that has one circular base that tapers smoothly from the bottom to a point called the apex or vertex.																

Alternative Assessment Vocabulary Math

congruent	A mathematical term that means exactly equal in size and shape.	<p>Circle the two triangles that are congruent.</p> 						
convert	A mathematical term that means to change something into a different form.	<p>Convert the decimal .25 into a fraction.</p> <p>Answer: $\frac{1}{4}$</p>						
conversion table	A mathematical term that refers to an arrangement of equivalent values.	<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="padding: 5px;">Quart</th> <th style="padding: 5px;">Gallon</th> </tr> </thead> <tbody> <tr> <td style="text-align: center; padding: 5px;">1</td> <td style="text-align: center; padding: 5px;">.25</td> </tr> <tr> <td style="text-align: center; padding: 5px;">4</td> <td style="text-align: center; padding: 5px;">1</td> </tr> </tbody> </table>	Quart	Gallon	1	.25	4	1
Quart	Gallon							
1	.25							
4	1							
coordinate	A mathematical term that refers to a number in an ordered pair that names the location of a point on the coordinate plane.	$\begin{matrix} x & y \\ (3, & 5) \end{matrix}$						
coordinate plane	A mathematical term that refers to a plane containing the "x" axis and "y" axis.	<p>Plot the ordered pairs (2, 2) on the coordinate plane.</p> 						
counting	A mathematical term used to determine the total number of a group of items. Counting does not include the following: zero, negative numbers, fractions, or decimals.	 <p style="text-align: center;">1 2 3</p>						
cube	A cube is a solid object that has six identical square faces and looks like a box.							
cylinder	A cylinder is a solid object with 2 circular ends that are the same. It also has one curved side.							

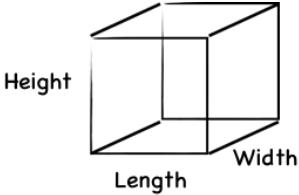

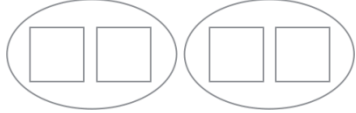

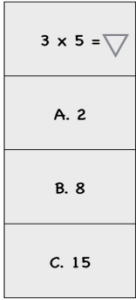

Alternative Assessment Vocabulary

Math

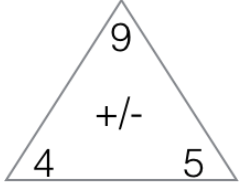

<p>data</p>	<p>A mathematical term that means a collection of facts (i.e., numbers, words, measurements, observations or even just descriptions of things).</p>	<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th colspan="2" style="text-align: center;">Students' Favorite Colors</th> </tr> <tr> <th style="text-align: center;">Colors</th> <th style="text-align: center;">Number of Students</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">Blue</td> <td style="text-align: center;">15</td> </tr> <tr> <td style="text-align: center;">Green</td> <td style="text-align: center;">10</td> </tr> <tr> <td style="text-align: center;">Red</td> <td style="text-align: center;">5</td> </tr> </tbody> </table>	Students' Favorite Colors		Colors	Number of Students	Blue	15	Green	10	Red	5
Students' Favorite Colors												
Colors	Number of Students											
Blue	15											
Green	10											
Red	5											
<p>decimal</p>	<p>A mathematical term that refers to a point that represents a fraction with an unwritten denominator of 10 or some power of 10.</p>	<p>.7 is = to 7/10</p>										
<p>demonstrate</p>	<p>A mathematical term that means to prove something by showing evidence or showing one's work.</p>	<p>Demonstrate the whole number 250 in two ways.</p> <p style="text-align: center;">$245 + 5 = 250$</p> <p style="text-align: center;">$252 - 2 = 250$</p>										
<p>denominator</p>	<p>A mathematical term used to refer to the number below the line of a fraction. It represents the total set of objects (the divisor).</p>	<p style="text-align: center;"> Fraction $\left\{ \begin{array}{l} \frac{3}{5} \\ \text{Numerator} \\ \text{Denominator} \end{array} \right.$ </p>										
<p>diameter</p>	<p>A straight line going through the center of a circle.</p>											
<p>difference</p>	<p>A mathematical term that signals to students to subtract.</p>	<p>The difference between a number and 15 is 4. Find the number.</p> <p style="text-align: center;">$x - 15 = 4$</p> <p style="text-align: center;">Answer: $x = 19$</p>										
<p>digit</p>	<p>A mathematical term that refers to any of the numerals from 0 to 9.</p>	<p>Which of these represents a three (3) digit number?</p> <p>a. 8 b. 27 c. 345</p>										

Alternative Assessment Vocabulary

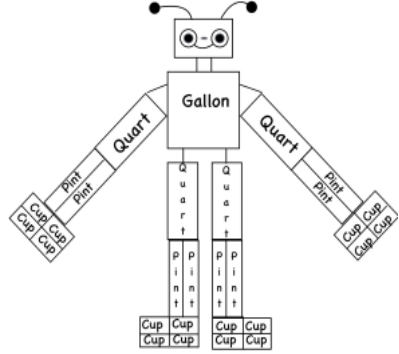

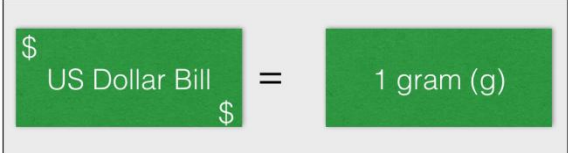

Math

<p>dimensions</p>	<p>A dimension is the measure of the length, width, or height of a figure in one direction.</p>	
<p>divide</p>	<p>A mathematical term that means the opposite of multiplying. Division refers to splitting a group of objects into equal parts ("fair sharing").</p>	<p>Divide 4 by 2.</p> 
<p>drop down menu</p>	<p>An mathematical term that means a horizontal list of options that appears on a computer screen when clicking a button.</p>	<p>Use the drop down menu to answer the question.</p> 
<p>Elapsed time</p>	<p>A mathematical term that refers to the amount of time that passes from the beginning of an event to its end.</p>	<p>Start Time End Time</p> <p>2:00 pm 3:30 pm</p> <p>Elapsed Time</p> <p>1 hr. 30 min.</p>
<p>end</p>	<p>A mathematical term that means the last part of a set of data.</p>	<p>Which of these numbers is located at the end?</p> <p>3, 5, 7, 13</p> <p><u>Answer: 13</u></p>
<p>equal or equivalent</p>	<p>A mathematical term that means having the same value.</p>	<p>$85\% = 85/100$</p>
<p>evaluate</p>	<p>A mathematical term used to determine the fixed value of something (solve).</p>	<p>Evaluate.</p> <p>$4x + 3 = 23$</p> <p>$x = 5$</p>

Alternative Assessment Vocabulary Math

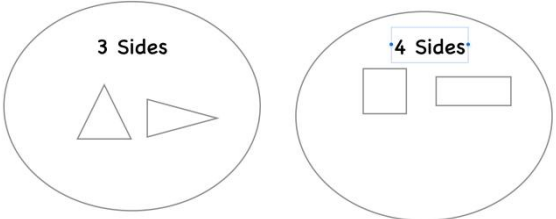

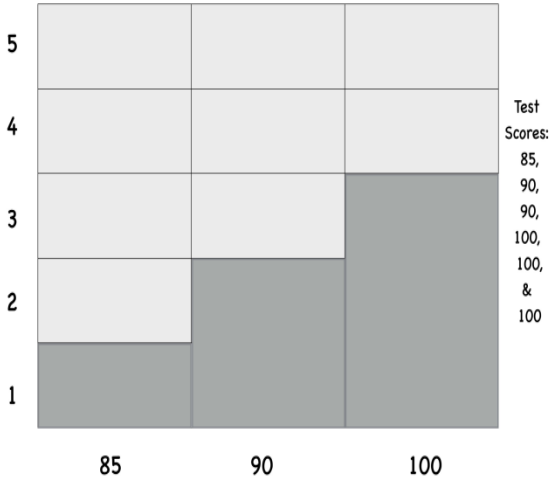

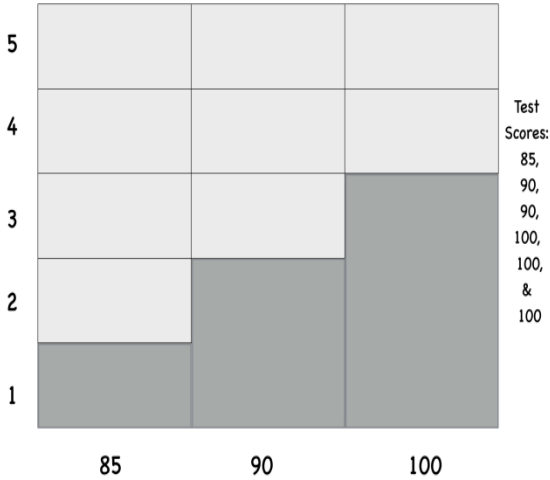

exponents	A mathematical term that refers to the small number written above the base number on the right-hand side. Also known as power, this small number indicates how many times to use that number in multiplication.	<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;"> $3 \times 3 \times 3 \times 3 = 3^4$ </div> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 5px auto;"> 3^4 Exponent Base </div>										
expression	A mathematical term that refers to numbers, symbols and operators (such as + and \times) grouped together that show the value of something.	$2 \times 3 =$										
fact families	A mathematical term that refers to related addition and subtraction facts, or multiplication and division facts, made from the same numbers.											
factor	A mathematical term that means a number that evenly divides a larger number.	List the factors of 24. Answer: <u>1, 2, 3, 4, 6, 8, 12, & 24</u>										
false	An mathematical term that means not true or accurate.	3 is bigger than 7. <input type="radio"/> True <input checked="" type="radio"/> False										
fraction	A mathematical term that means a part of a whole. The numerator is the number on top represent the parts • the bottom number (the denominator) says how many parts the whole is divided into • the top number (the numerator) says how many.	Fraction $\left\{ \begin{array}{l} \frac{3}{5} \\ \text{Numerator} \\ \text{Denominator} \end{array} \right.$										
function table	A mathematical term that refers to a visual display of the input, relationship, and output of a function.	<table border="1" style="border-collapse: collapse; width: 150px; height: 150px;"> <tr> <td style="text-align: center;">x</td> <td style="text-align: center;">y</td> </tr> <tr> <td style="text-align: center;">0</td> <td style="text-align: center;">5</td> </tr> <tr> <td style="text-align: center;">1</td> <td style="text-align: center;">6</td> </tr> <tr> <td style="text-align: center;">2</td> <td style="text-align: center;">7</td> </tr> <tr> <td style="text-align: center;">3</td> <td style="text-align: center;">8</td> </tr> </table>	x	y	0	5	1	6	2	7	3	8

Alternative Assessment Vocabulary

Math

greatest	A mathematical term used to describe the largest number.	<p>Place the numbers found below in order from least to greatest.</p> <p style="text-align: center;">3, 9, 5, 2</p> <p style="text-align: center;">Answer: <u>2, 3, 5, 9</u></p>								
greater than	A mathematical term that requires students to compare two or more numbers and identify the largest one. The symbol for greater than is $>$.	$45 > 33$								
grouping	A mathematical term that means to put objects into categories based on similarities.	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;"> <p>3 Sides</p>  </div> <div style="text-align: center;"> <p>4 Sides</p>  </div> </div>								
histogram	A mathematical term used to describe a visual display of data using bars of different heights. Histograms are a great way to show continuous data.	<p style="text-align: center;">Frequency Histogram</p>  <table border="1" style="margin-top: 10px; width: 100%; text-align: center;"> <caption>Data for Frequency Histogram</caption> <thead> <tr> <th>Test Score</th> <th>Frequency</th> </tr> </thead> <tbody> <tr> <td>85</td> <td>1</td> </tr> <tr> <td>90</td> <td>2</td> </tr> <tr> <td>100</td> <td>3</td> </tr> </tbody> </table>	Test Score	Frequency	85	1	90	2	100	3
Test Score	Frequency									
85	1									
90	2									
100	3									

Alternative Assessment Vocabulary Math

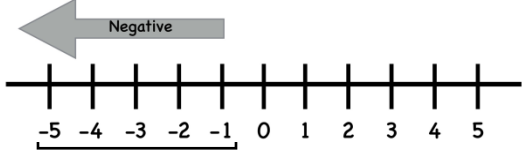

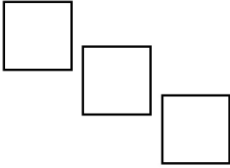

hundredths	A mathematical term that refers to the second digit to the right of the decimal point; one out of 100 equal parts of a whole.	
identify	A mathematical term that means to show what something is.	<p>Identify the triangles below. Place an x on each one.</p> 
integers	A mathematical term that refers to a number with no fractional part. Integers include the following: counting numbers, zero, and negative counting numbers	1, 2, 3, 4,
intervals	A mathematical term that refers to the distance between one number and the next on the scale of a graph.	
irrational	A mathematical term in which is a real number that cannot be written as a simple fraction (i.e., $\pi = 3.1415926535897932384626433832795$).	<p style="text-align: center;">Irrational Numbers</p>  <div style="display: flex; justify-content: space-around; margin-top: 10px;"> <div style="border: 1px solid gray; border-radius: 5px; padding: 2px 5px;">$\sqrt{2} = 1.41421356237$</div> <div style="border: 1px solid gray; border-radius: 5px; padding: 2px 5px;">$\sqrt{3} = 1.73205080757$</div> <div style="border: 1px solid gray; border-radius: 5px; padding: 2px 5px;">$\sqrt{5} = 2.2360679775$</div> </div>
largest	A mathematical term used to describe the biggest number in a set of data.	<p>Which number is the largest? 7 or 12</p> <p style="text-align: center;">Answer: <u>12</u></p>

Alternative Assessment Vocabulary
Math

linear equation	A mathematical term that refers to an equation that makes a straight line when it is graphed.	
least	A mathematical term used to describe the smallest number.	<p style="text-align: center;">9, 4, 8, 1</p> <p>Place the numbers in order from least to greatest.</p> <p style="text-align: center;">Answer: <u>1, 4, 8, & 9</u></p>
less than	A mathematical term that requires students to compare two or more numbers and identify the smallest one. The symbol for less than is $<$.	<p>Identify the numbers less than 10.</p> 
length	A mathematical term that refers to the distance from end of an object to the other end.	
liter	A mathematical term that refers to a metric unit of volume. Mostly used to measure liquids. The abbreviation is L. 1 <i>liter</i> = 1,000 milliliters (ml).	

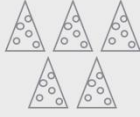

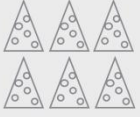

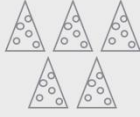

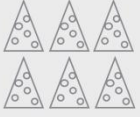

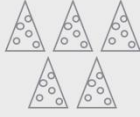

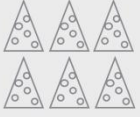

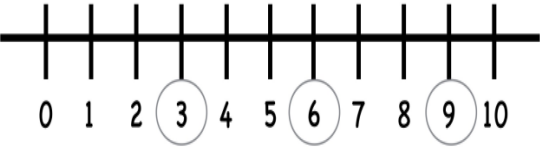

Alternative Assessment Vocabulary

Math

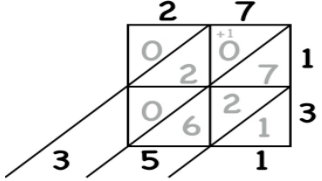

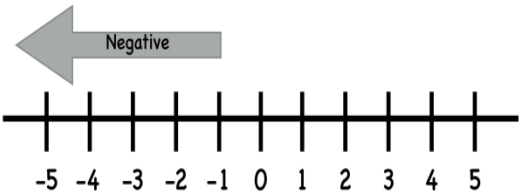

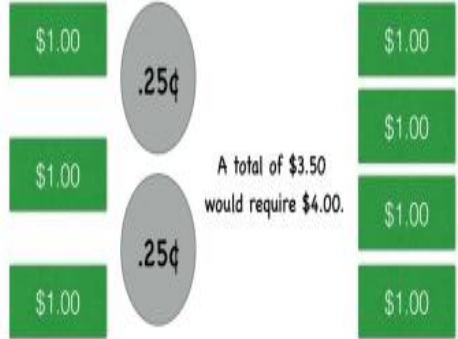

locate	A mathematical term that means to find or pinpoint.	<p>Locate all of the negative numbers on the number line.</p> 												
manipulatives	A mathematical term that provides a way for students to learn concepts in a hands-on way.													
middle	An mathematical term that refers to place between two things or numbers.	<p style="text-align: center;">3 7 11</p>												
mean	A mathematical term used to refer to the “average” of a set of data.	<table border="1" data-bbox="1089 1115 1442 1356"> <thead> <tr> <th colspan="2">Mean, Median, Mode, & Range</th> </tr> </thead> <tbody> <tr> <td colspan="2" style="text-align: center;">3, 15, 5, 17, 3, 9, 7</td> </tr> <tr> <td>Median</td> <td>3, 3, 5, 7, 9, 17, 19 $3+3+5+7+9+15+17 = 59$ $63 \div 7 = 9$</td> </tr> <tr> <td>Median</td> <td>3, 3, 5, 7, 9, 17, 19</td> </tr> <tr> <td>Mode</td> <td>3</td> </tr> <tr> <td>Range</td> <td>$19 - 3 = 16$</td> </tr> </tbody> </table>	Mean, Median, Mode, & Range		3, 15, 5, 17, 3, 9, 7		Median	3, 3, 5, 7, 9, 17, 19 $3+3+5+7+9+15+17 = 59$ $63 \div 7 = 9$	Median	3, 3, 5, 7, 9, 17, 19	Mode	3	Range	$19 - 3 = 16$

<p>multi-digit</p>	<p>A mathematical term that refers to two or more numerals from 0 to 9.</p>	<p style="text-align: center;">357</p>												
<p>multiple</p>	<p>A mathematical term that refers to a number is the product of that number and any other whole number.</p>	<p style="text-align: center;">Multiples of 3</p> 												

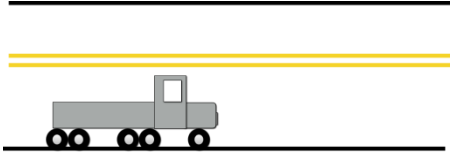

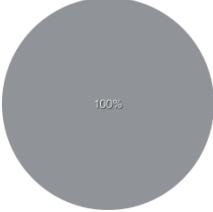

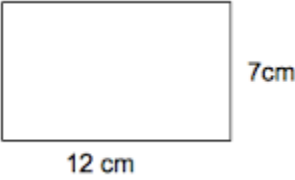

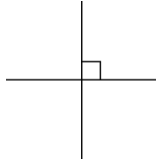

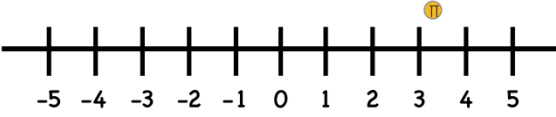

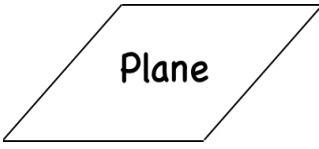

Alternative Assessment Vocabulary Math

<p>multiply</p>	<p>A mathematical term that refers to the operation that involves repeated addition. The answer is the product.</p>	 <p style="text-align: center;">Answer: 351</p>
<p>negative</p>	<p>A mathematical term that refers to a real number that is less than zero. Negative represents movement to the left on a number line.</p>	
<p>number line</p>	<p>A mathematical term that represents a straight line with a "zero" point in the middle with positive numbers to the right of the zero and negative numbers to the left of the zero.</p>	<p>Choose the number that represents Point A.</p> 
<p>Next Dollar Strategy</p>	<p>A mathematical term that refers to a strategy that allows students, who may not be able to make change, to make purchases items. A student gives the cashier the number of dollars + one more to buy the item.</p>	

Alternative Assessment Vocabulary Math

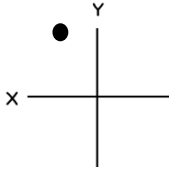

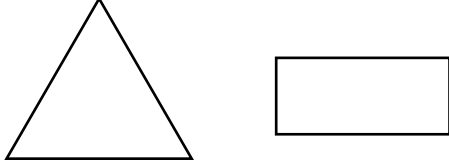

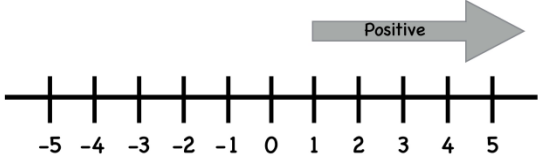

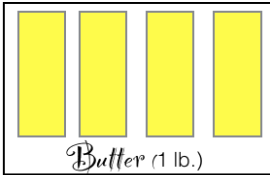

non linear	A mathematical term that refers to a curve that does not trace a straight line.	
numerator	A mathematical term that refers to the number above the line of a fraction. It represents the parts.	<p>Fraction $\left\{ \begin{array}{l} 3 \text{ Numerator} \\ 5 \text{ Denominator} \end{array} \right.$</p>
object	A mathematical term that refers to something that has height, width and depth used in mathematics.	
obtuse angle	A mathematical term that refers to an angle greater than 90° but less than 180°	
operation	A mathematical term that refers to a process in which one can add, subtract, multiply and divide (+, -, ×, ÷) to solve a problem.	 <p style="text-align: center;">Answer: <u>3</u></p>
order	A mathematical term that refers to putting a set of data in a particular grouping or sequence.	<p>5, 7, 1, 4, 9</p> <p>Put the above numbers in order from least to greatest.</p> <p>Answer: <u>1, 4, 5, 7, & 9</u></p>

Alternative Assessment Vocabulary Math

parallel	A mathematical term that refers to two lines that are always the same distance apart and never touch.	
pattern	A mathematical term that refers to design that is repeated or a recurring sequence.	
percent	A mathematical term that refers to parts per 100.	
perimeter	A mathematical term used to refer to the total distance around the edge of the figure.	<p>Find the perimeter of the following rectangle:</p> 
perpendicular	A mathematical term used to refer to line meeting another at a right angle, or 90° .	
pie	A mathematical term that refers to the number π is a mathematical constant, the ratio of a circle's circumference to its diameter, $\pi = 3.1415926535897932384626433832795$.	<p>Identify pie on a number line.</p> 
plane	A mathematical term used to refer to a flat surface with no thickness.	

Alternative Assessment Vocabulary

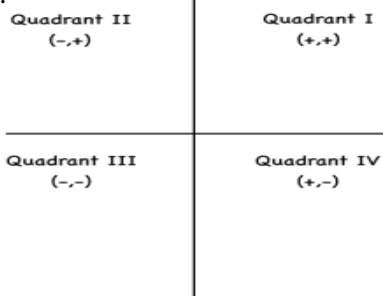

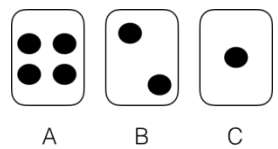

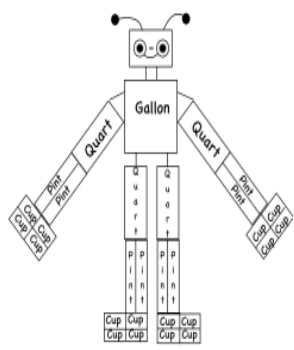

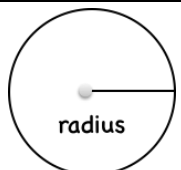

Math

<p>plot</p>	<p>A mathematical term that means to draw on a graph.</p>	 <p>Plot (1,5) on the graph.</p>														
<p>polygon</p>	<p>A mathematical term that refers to a two – dimensional shape that is a plane with straight sides (i.e., triangles, rectangles and pentagons). Note: a circle is not a <i>polygon</i> because it has a curved side.</p>															
<p>positive</p>	<p>A mathematical term that refers to a number greater than zero.</p>															
<p>pounds</p>	<p>A mathematical term that refers to a unit that is used to measure weight. One pound is equivalent to 16 ounces.</p>															
<p>prediction</p>	<p>A mathematical term that refers to a reasonable guess as to what will happen.</p>	<table border="1" style="width: 100%; text-align: center;"> <tr> <td>Sunday</td> <td>Monday</td> <td>Tuesday</td> <td>Wednesday</td> <td>Thursday</td> <td>Friday</td> <td>Saturday</td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </table> <p>I predict that it will  Saturday.</p>	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday							
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday										
																

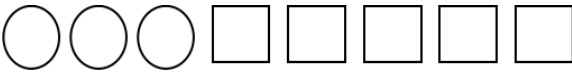

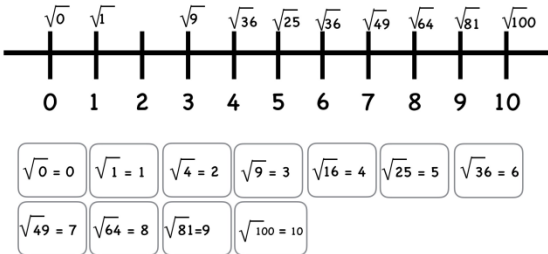

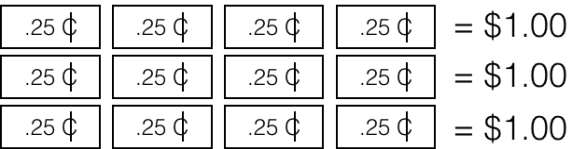

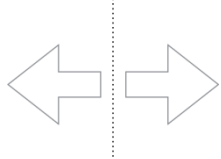

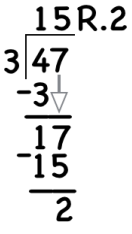

Alternative Assessment Vocabulary
Math

product	A mathematical term that means the answer to a multiplication problem.	<p>What is the product of 2 and 3?</p> <p style="text-align: center;">Answer: <u>6</u></p>												
properties	A mathematical term that refers to characters or qualities of something (i.e., color, height, & weight).	<p>Check two (2) properties for this shape.</p> <div style="display: flex; align-items: center; gap: 20px;">  <table border="1" style="border-collapse: collapse;"> <tr> <td style="padding: 2px;">It has three (3)sides.</td> <td style="width: 30px; text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td style="padding: 2px;">It has four (5) sides.</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td style="padding: 2px;">It is blue.</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td style="padding: 2px;">It is black.</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td style="padding: 2px;">None of the sides are equal.</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td style="padding: 2px;">All of the sides are equal.</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> </table> </div>	It has three (3)sides.	<input type="checkbox"/>	It has four (5) sides.	<input type="checkbox"/>	It is blue.	<input type="checkbox"/>	It is black.	<input checked="" type="checkbox"/>	None of the sides are equal.	<input type="checkbox"/>	All of the sides are equal.	<input checked="" type="checkbox"/>
It has three (3)sides.	<input type="checkbox"/>													
It has four (5) sides.	<input type="checkbox"/>													
It is blue.	<input type="checkbox"/>													
It is black.	<input checked="" type="checkbox"/>													
None of the sides are equal.	<input type="checkbox"/>													
All of the sides are equal.	<input checked="" type="checkbox"/>													
proportions	A mathematical term that refers to two ratios that are equal. A character or quality that something has. Such as color, height, weight, etc.	$\frac{1}{3} = \frac{2}{6}$												
purchase	A mathematical term that means to acquire something by paying for it.	<p>If Lucy purchases 3 music downloads for \$1.00, what is her total?</p> <div style="display: flex; flex-direction: column; gap: 10px;"> <div style="display: flex; align-items: center; gap: 10px;">  \$1.00 </div> <div style="display: flex; align-items: center; gap: 10px;">  \$1.00 </div> <div style="display: flex; align-items: center; gap: 10px;">  \$1.00 </div> </div> <p>Answer: <u>\$3.00</u></p>												

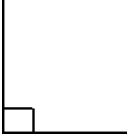

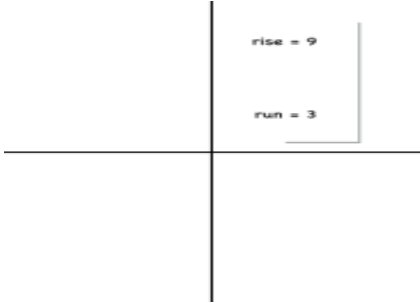

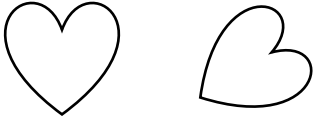

Alternative Assessment Vocabulary Math

<p>quadrant</p>	<p>A mathematical term used to refer to any of the 4 areas made when we divide up a plane by an x and y axis (as shown).</p>	<p>Which of these quadrants contain positive numbers?</p> 
<p>quadratic function</p>	<p>A mathematical term where the highest exponent of the variable (usually "x") is a square (2).</p>	$f(x) = ax^2 + bx + c$
<p>quantities</p>	<p>How much there is of something.</p>	<p>Which one shows 2?</p> 
<p>quarts</p>	<p>A mathematical term that refers to the unit of volume used to measure liquids equal to 2 pints or 32 ounces.</p>	
<p>quotient</p>	<p>A mathematical term that refers to the answer to a division problem.</p>	<p>What is the quotient of 15 and 5?</p> <p style="text-align: center;">Answer: <u>3</u></p>
<p>radius</p>	<p>A mathematical term that refers to the length of the line from the center of a circle to any point on its edge.</p>	
<p>range</p>	<p>A mathematical term used to refer the difference of largest and smallest values in a set of data.</p>	<p style="text-align: center;">3, 5, 8, 9</p> <p>What is the range for the numbers above?</p> <p style="text-align: center;">Answer: <u>6</u></p>

Alternative Assessment Vocabulary Math

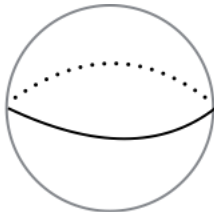

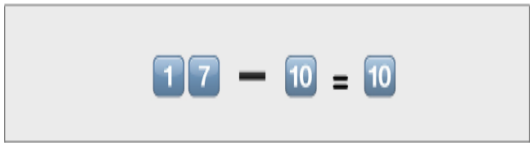

ratio	A mathematical term that is a comparison of two things. A ratio can be written as a to b, a : b or a/b. Ratios can be part-to-part, part-to-whole, or whole-to-part.	<p>What is the ratio of circles to squares?</p>  <p style="text-align: center;">3 to 5</p>
rational number	A mathematical term used to describe a number that can be written as a fraction.	<p style="text-align: center;">Rational Numbers</p> 
real world problems	A mathematical term used to refer to mathematical problems that require the application of multiple operations to solve. These problems require less abstract thinking because life experiences help students relate to what is being asked of them.	<p>Lucy bought 4 candy bars for a \$1.00. How much would 12 candy bars cost?</p>  <p style="text-align: center;">Answer: <u>\$3.00</u></p>
reflection	A mathematical term used to describe how a shape would look in a mirror.	
remainder	A mathematical term used to describe a part, number, or quantity that is left over.	

Alternative Assessment Vocabulary Math

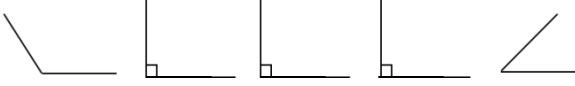

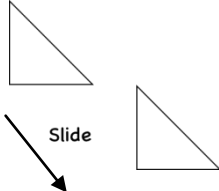

Right angle	A mathematical term used to refer to an angle that measures 90° .	
rise over run	A mathematical term used to describe the steepness or slope of the line (in fraction form). Slope = rise / run.	
rotation	A mathematical term that refers to the turning around in a circular motion.	
round	A mathematical term that refers to a method used to shorten numbers. It involves either increasing or decreasing a number to the next digit.	<p>Round 3.589 to the nearest whole number.</p> <p style="text-align: center;">Answer: <u>4</u></p>
sequential	A mathematical term that means to put things in numerical or logical order.	<p>Place the following numbers in sequential order (least to greatest): 8, 2, 7, 3</p> <p style="text-align: center;">Answer: <u>2, 3, 7, & 8</u></p>
shaded	A mathematical term used to number of parts colored in (numerator).	<p>How many parts are shaded?</p>  <p style="text-align: center;">Answer: <u>2</u></p>
shape	A mathematical term that refers to the form of an object - how it is laid out in space (not what it is made of, or where it is).	
show	A mathematical term used as a way to prove or produce an answer.	<p>Show the number 3.</p> <p style="text-align: center;">Answer: <u>2 + 1</u></p>

Alternative Assessment Vocabulary

Math

sides	A mathematical term that refers to any line segment used to form a polygon.	A square has four (4) sides. 
skip counting	A mathematical term that refers to counting forwards or backwards by a number other than 1.	✗, 2, ✗, 4, ✗, 6, ✗, 8, ✗, 10
slope	A mathematical term that is a straight line that shows how steep a straight line is. The slope (m) is also called gradient.	The slope m of the line through the points (x_1, y_1) and (x_2, y_2) is given by $m = \frac{y_2 - y_1}{x_2 - x_1}$
smallest	A mathematical term used to refer to low numerical value; little.	Which of these is the smallest number? 4, 7, 2, 1, 5, 9 Answer: <u>1</u>
solve	A mathematical term that means to find the answer.	Solve. $4+6=10$
sphere	A mathematical term that refers to a 3-dimensional object (shaped like a ball) in which every point on the surface is the same distance from the center.	
square root	A mathematical term that is a value that, when multiplied by itself, gives the number.	$\sqrt{25} = 5$
subtract	A mathematical term used the operation or process of finding the difference between two numbers.	Subtract 7 from 17. 
symbol	An image used instead of words.	= equal to

Alternative Assessment Vocabulary
Math

<p>total</p>	<p>A mathematical term that refers to the entire number or amount counted.</p>	<p>What is the total number of right angles?</p>  <p style="text-align: center;">Answer: <u>3</u></p>
<p>translation</p>	<p>A mathematical term that refers to the movement of a shape (sliding it).</p>	
<p>true</p>	<p>A mathematical term that means accurate or correct.</p>	<p>7 is bigger than 3.</p> <p><input checked="" type="radio"/> True</p> <p><input type="radio"/> False</p>
<p>unit rate</p>	<p>A mathematical term that refers to the ratio of two measurements in which the second term is 1.</p>	<p>If a student walks 15 miles in 3 days. What is the unit rate?</p> $\begin{array}{r} 15 \text{ miles} \\ \hline 3 \text{ days} \end{array} \div 3 = \begin{array}{r} 5 \text{ miles} \\ \hline 1 \text{ day} \end{array}$
<p>value</p>	<p>A mathematical term that refers how much something is worth.</p>	<p>What is the value of x?</p> $x + 5 = 10$ <p style="text-align: center;">Answer: <u>5</u></p>
<p>variable</p>	<p>A mathematical term that refers to a letter that is used to stand in for an unknown value.</p>	<p>What number does this variable represent?</p> $n + 5 = 12$ <p style="text-align: center;">Answer: <u>7</u></p>
<p>vertex</p>	<p>A mathematical term that refers to a corner or where two or more straight lines meet.</p>	

Alternative Assessment Vocabulary
Math

vertical	A mathematical term used to describe a direction (up and down).	
whole	A mathematical term that means complete or full. In math, a whole number does not contain a fractional or decimal part. Negative numbers are not considered whole numbers.	<p>Which of these is a whole number?</p> <p><input checked="" type="radio"/> 4</p> <p><input type="radio"/> 4/5</p> <p><input type="radio"/> 4.5</p>
word problems	A mathematical term that refers to a problem presented as a text (narrative or story) in which key words signal the equation(s) that should be used to find the answer.	<p>A store sells 2 types of Smartphone. They have 3 colors of each type. How many choices of phones are there?</p> <div style="display: flex; flex-wrap: wrap; justify-content: space-around; text-align: center;"> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 1 Blue</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 1 Pink</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 1 Silver</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 2 Blue</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 2 Pink</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin: 5px;">Type 2 Silver</div> </div> <p style="text-align: center;"><u>Answer: 6</u></p>
